Shortly after the beginning of the e-Doc test period, we will be releasing our ISF Web Suite. Our ISF Web Suite can be made accessible to any party in your supply chain that "YOU" designate to provide data. It can be one or multiple parties for a given ISF. The Web Suite caters to JIT supply chains and is automated and available 24/7/365. The site will provide many ISF management reports including compliance tools. EDI options are also available upon request. All electronic methods will require extensive data base perfection and data exchange on an ongoing basis.

Please contact any one of the above ISF Customer Service Specialists who will assist you in getting set up to meet the January 26th compliance date requirement.
