American Cartage and Distribution, LLC

Monday, June 07, 2010

Dear Valued Client,

First and foremost we would like to thank you for your patronage, loyalty and support as you continue to work with our warehouse operations and crew. We have been very fortunate to have the opportunity to provide services to you and want to thank you for our partnership.

We are writing you in order to inform you of some changes in our warehouse and distribution operations which we feel will benefit our customers as well as strengthen our organization. Recently the American Cartage & Distribution partners have decided to expand the level of services and tools that we offer by creating a strategic partnership with a very well established 3PL by the name of Jam-n Logistics (<http://www.jam-n.com/whatwedo/index.htm>).

The owners of Jam-n Logistics and The American Companies have already enjoyed a long standing relationship for over 12 years running now. We have worked on many projects together in the past, and American has even sponsored the Jam-n race team many years ago further demonstrating the tenure of this partnership.

And while our new strategic partners will be solely focused on the warehouse and distribution side of the business, we aim to help them stay focused on this strategic side of our business by taking over their international and Customs business thus allowing both partners to focus on what each does best.

The above said, the American Cartage & Distribution / Jam-n Logistics partnership simply put will bring our clients (as well as theirs) the very best of each core supply chain service to better serve your needs. While we are integrating systems, management and operation teams closer together as the next months unfold, we ask that you please be patient with us as we make some subtle changes to begin the integration process effective July 1st 2010.

The first visible signs of our new partnership will result in the following changes:

- A new web based WMS Visibility and Order Entry System will be deployed. All clients currently using the current system will receive new user credentials and we will contact you shortly for systems training.
- The California Warehouse location and personnel will change. We will notify you of the specifics (new address and contact details) shortly.
- Our billing format will change, however current established rates will not change for most clients.
- New Warehouse Agreements will be sent for review and completion.

Aside from the above, all personnel and locations will remain unchanged. The new partnership will certainly bring many other changes internally which will bring new levels

Since 1899

American Cartage and Distribution, LLC

of efficiency, better tools and different management styles as to how we run our internal operation. American Cartage and Distribution management and staff are very excited about these changes and the new enhancements which will be added to the plate of services we offer. We are confident that in a short time that you too will experience the excitement as well.

Please know that there will be no changes to the drayage division of American Cartage & Distribution as they will continue uninterrupted from the same facilities.

As June continues to unfold, you will hear more about our plans and the positive impact these decisions will have. Additionally, we will need to close for a complete inventory at the end of June and you will be individually notified of the “blackout dates” when this will occur.

If you have any further questions or wish to learn more about our strategic partnership please feel free to contact your client representative, sales associate or any of the partners at any time to discuss these changes.

Once again we thank you for your loyalty and support as we journey down the path of constant change and improvements to bring you the very best the industry has to offer.

With Sincere Gratitude,

Marc Greenberg
